

**Website dedicated to June 26, 1959
A year of continuous growth**

Olgiate Olona, March 12, 2014

The website www.olgiateolona26giugno1959.org dedicated to the memory of June 26, 1959, presented on March 23, 2013 in Olgiate Olona and online since March 25, 2013, has grown and improved during its first year of life. New texts, unpublished documents, photo galleries, witnesses, mass media articles about the plane crash and commemorative events held in Olgiate Olona have been added to the already massive amount of documentation available from the day of the debut in the web.

With four thousands visits, the website created by Nicola Puddu with the cooperation of Alberto Colombo celebrates its first year with: 244 pages (+45% compared to twelve months ago) of which 106 are dedicated to the seventy immortal lives, 453 pictures (+16%), 13 videos (+330%), 95 articles taken from the mass media, 111 external pdf documents (+140%) for a total of 214 pages (+92%). Contents of the website have increased overall by 175%: the website now contains 1.100 files for a total weight of 386 MB, but despite the size leavened, the continuous reorganization of graphic files facilitates a faster display of the pages.

Olgiate Olona Mayor Giorgio Volpi said: *"This significant website which improves over the time attests that the memory is alive, and it is the tool that allow us to establish and keep contacts with some relatives of the seventy immortal lives and other people of Olgiate Olona and the world who take to heart the memory of June 26, 1959"*.
